

ECODEck®

On Grade NATURAL Hardwood DECK TILES

ECO ARBOR DESIGNS 1 888 335 8453

ECODEck Tm. Tile Specifications and information

What are ECODEck Tiles Tm?

ECODEck Tiles Tm. combines premium quality natural hardwood with a high strength composite interlocking backing. This system features a fastening matrix that is pre secured using industrial strength screws on the underside of the tile. The deck tiles are sold in pieces or sq ft, 1x1, 1x2. They can be installed over any even outdoor surface to create your own stunning outdoor entertainment areas. Once our **ECODEck Tm. Deck Tiles** are locked in place, they will create a durable hard wearing deck floor. Our tiles are comfortable to walk on, visually stunning and yet durable enough for any climate or weather.

ECODEck tm On Grade

Deck tiles will install quickly and efficiently over any flat surface indoor or out.

- Industrial or commercial grade deck tiles in a perfect square or rectangle. Supports loads up to Design and build level decks on rooftops or any structural surface with a high end natural stone finish.
- Installation requires no screws, nails or toxic adhesives. To install... Simply sweep the surface clean and begin locking each tile in place.
- **ECODEck Deck Tiles tm.** plastic polyethylene interlocking deck tile frame system ensures a tight lock between each tile with evenly spaced deck boards across the surface. The polyethylene frame has an injected UV stabilizer/fire retardant that will ensure you can un-click the tiles years after install and click them back in place again.
- Our own award winning **ECODEck Tm.** Deck tiles started as a DIY product that lock securely into place over any even hard surface. They were originally designed for EPDM rubber membrane liners found on most roof decks and balconies.
- **ECODEck Tm. Deck Tiles** come in several specie of hardwoods all of which are extremely resistant to splitting and water rot. All of our lumber is KILN dried 12-14% humidity which adds superior durability over softer woods and air dried lumber typically found in competing products.

Uses

- Urban patios, terraces and rooftop decks
- Large, commercial flat rooftop terraces and plazas
- Deck pedestals for roof pavers: concrete pavers, wood tiles, stone, etc.
- Decks on green roofs creative rooftop decking environments

- Residential decks over cracked concrete patios & on-grade
- Decking and landscaped areas on streets and curbsides
- Commercial decks, residential decks and retrofitted decks

What is the cost of the Deck Tile system?

You can expect to pay \$8–\$12 per square foot for most hardwood deck tiles products. Add approximately \$1–\$3 per square foot for installation labor.
